- Intel notified DEQ 5/21/84 & submitted written report 5/23/84.
- GRI conducted a GW Investigation & submitted report to DEQ 8/85.

② **7/25/86 Intel (John H) to DEQ (Janet G) Letter**

- Intel's addendum to their 7/15/86 letter citing EPA release indicting release from SQG does not negate a facility's status as SQG or require TSDF permitting.

✓ **10/91 E&E's Preliminary Assessment for EPA**

- EPA refers site to DEQ.

✓ **11/19/92 DEQ (Eric B)/Intel (John H) Mtg**

- Initial meeting. Spill occurred in 1982. EPA reviewed site in 1990 & deferred to State. EMCON installed additional MWs in 1990 & found higher contaminant concentrations.

✓ **12/7/92 Intel (John H) to DEQ (Mike R) Letter**

- Intel's LETTER OF INTENT OT PARTICIPATE in VCP.

- Intel submits Intel's 7/15 & 7/25/86 letter to DEQ, 40 CFR Part 262, & note saying RCRA question should now be resolved

✓ **6/7/93 Intel (John H) to DEQ (Eric B) Letter**

- Intel's response to DEQ's request for additional information re: release.
- 7/4/82 failure of PVC water main was traced to solvent release from waste solvent collection system. Waste solvent collection system was immediately taken out of service & replaced by 2x-walled tank. 5 MWs were installed & soil & GW survey was conducted.
- Intel doesn't believe this is a RCRA issue.

③ **8/12/93 DEQ (Eric B) to Intel (John H) Letter- FILE REVIEW SUMMARY MEMO**

- Eric recommends RI/FS.
- GW is only exposure pathway.

**9/15/93 DEQ (Eric B) to Intel (John H) Letter**

- Preliminary copy of RI/FS Agreement and Statement of Work (SOW).

④ **10/7/93 DEQ (Eric B) to Intel (John Masterman, legal) Letter**

⑤ **11/29/93 EMCON (Russ Bunker) to DEQ (Eric B) Letter- Proposed Phase I RI/FS**

- Phase I will focus on obtaining preliminary on-site GW quality data to evaluate the lateral & vertical extent of GW VOCs, a possible residual source, & additional GW MW locations.

-Phase I will consist of 4 tasks:

- 1) verify GW flow direction
- 2) evaluate source area GW quality
- 3) evaluate downgradient GW quality
- 4) submit Phase I report.
