

SUMMARY OF POTENTIAL CONTAMINATION

Briefly describe the source, volume and type of contaminant(s) present on the property (or attach statement): Volatile organic compounds released to soils and ground water from an underground storage tank system in 1982. Volume is unknown.

Contaminants are principally halogenated compounds and "daughter" compounds formed through dehalogenation.

Are hazardous substance contaminants present in the groundwater?

XX Yes No Unknown

Intent to Participate

The undersigned requests oversight by the Department of Environmental Quality (DEQ) of investigation and cleanup activities of possible contamination at the property described above and requests the site be placed on DEQ's list of sites for oversight.

The undersigned intends to negotiate in good faith a written agreement with DEQ to provide for voluntary oversight. However, this Intent to Participate does not constitute such an agreement, and neither DEQ nor the undersigned will be bound to proceed with voluntary oversight unless such an agreement is executed. The agreement will describe the project activities of each party and will require the undersigned to reimburse DEQ for all of its oversight costs.

As DEQ moves sites from the waiting list to active status, DEQ will notify the undersigned in writing. Following receipt of such a notice (or earlier), the undersigned will submit a report to DEQ summarizing existing conditions, activities and status at the site. The undersigned understands that DEQ will move sites from the list to active status based on various considerations, only one of which will be the timing of the original placement of a site on the waiting list.

With this Intent to Participate, the undersigned does not admit or assume liability for investigation or cleanup of the site. In addition, the undersigned may terminate the Intent to Participate at any time.

Please execute this Intent to Participate in the space below and return to :
